

## My Ideal Obituary/Life Goals

In the space provided below write an obituary for yourself using the following criteria: assume that it was written in your 85th year (not at your current age); include the personal things you hope will be said about you; and include your ideals and aspirations or things you hope to have accomplished by age 85 (150 words or less). *It might be helpful for you to read a few real obituaries in order to get an understanding of what to include.*

### My Obituary at age 85

Now that your ideal obituary is written down, extract those ideal personal traits and ideal accomplishments that you identified and use them in the assignment below. List the personal traits that you do not now possess and set goals and strategies for achieving these traits in the future. Do the same thing for the ideal accomplishments. Think in terms of what you will have to start, change, or do in order to become the type person you described in your ideal obituary.
