

# Social and Financial Position

Where do I fall on the Social/Financial scale?

Am I:

- Wealthy
- Upper Class
- Upper Middle Class
- Lower Middle Class
- Poor
- In Poverty

How has my family and community affected my position in society?

Many beginning families start out in poverty. They are poor about 12% of their life and then move out of poverty. Certainly young families in college may be considered poor, but after training and placement in employment, they move up in their financial status.

How do you see your status related to being poor?

Does poverty automatically dictate unhappiness? Can a person be poor and still be happy?
